

This one-day awareness-level training course provides an overview of the the hazards facing coastal communities. Examples of these hazards are short term events such as high surf, storm surge, and tsunami inundation, or long term threats from sea level rise and coastal erosion. As an awareness-level course, this course provides participants a general understanding of the risks associated with coastal hazards, introduce methods of assessing that risk, and describe tools to help prepare for, plan for, and reduce those risks to coastal communities.

WHO SHOULD TAKE THIS COURSE

- ✓ Government Administrative
- * Government Officials
- * Planners and Developers
- * Coastal Zone Managers
- ✓ Emergency Management
- ✓ Public Works
- ✓ Public Safety
- ✓ Citizen/Volunteers
- ✓ Education
- ✓ General Public

MODULES
